

MALAYSIA, RISE TO YOUR DESTINY

Act 7:17 "But as the time of the promise was approaching which God had assured to Abraham, the people increased and multiplied in Egypt,

Act 7:18 until THERE AROSE ANOTHER KING OVER EGYPT WHO KNEW NOTHING ABOUT JOSEPH.

Act 7:19 "It was he who took shrewd advantage of our race and mistreated our fathers so that they would expose their infants and they would not survive.

Act 7:20 "It was at this time that Moses was born; and he was lovely in the sight of God, and he was nurtured three months in his father's home.

As the time of the promise approaching, God speaks from heaven. God declares and spoke to His people. When the things are about to come to pass, the contractions will become stronger and more frequent. If at any time we need to look up to heaven, this is the time. Everything that can go wrong will go wrong. A lot of things that are supposed to be done is not done. God is about to act and the time is now. Don't keep reading until we are overwhelmed by what we read.

1. The time has come for the church to strategically position herself to work outside the 4 walls

What happens outside this building is very important. If we can understand, we can push in the spirit and pray. Then things will happen outside. If things do not happen inside, things cannot happen outside.

The problem with Malaysia is that we are set at the valley of dry bones. Why did got set us in this valley? We see everything dry and hope is gone. The vision is lost and the inspiration is gone. God has put His word in our hearts so that when we speak the valley of dry bones will change. There many skeletons in the closet of many in Malaysia. It is time to pray and set things in order. This is not time to fear but time to renew our faith. God is sovereign. He will cause all things to work together for good. The time to pray, believe, and rise up is now. We cannot depend on anything because everything is spiraling downward. In the midst of all this, we must know that the time is now and we must get connected to God. Stay strong with Him. When He moves we must get ready. What we do now is very important because we must be ready to move, rise and breakthrough. The time for a new Malaysia is now. There seems to be no evidence but God is moving.

2. People are becoming increased and multiplied

Something is happening in the church. A lot of struggles in the past years are attacks on the church, the name, cross, arsonists, etc. All these rubbish has been happening but it is good because the church will not rise up stronger if nothing is happening. This is the history among God's people. When there is no trouble or fight, the church will not rise.

For so many years the church has become prosperous and all they want to do is migrate when trouble comes. They do not have the strength to stay and fight for the land that has blessed them. Unless we become stronger and competent, nothing will happen. The reason we want to have more people in the church not because we want to fill up heaven. As each one rise up and become stronger and each children, wife, husband become stronger, things will happen. If the people don't rise, we will not have man power. We must dig deep if we want to go up higher. It is

not going to be easy for us but every battle is winnable. God's will is not easy. We have to pay the price. There must be an increase in our life. We need to increase our number in the church. We can do and begin something and not stop because we have good work force.

3. A drastic political change is coming

The way people rise up will change the landscape of our land. There will be people who will rise and serve the nation. It is not just the Malays, or the Chinese or the Indians that bring independence to our country. It is everyone together. The people now forgot our history and some have selected memory. So many people have forgotten the history. The political changes that are happening will be irreversible. It will not go back to our old ways. Too many recycle ministers using old ways to keep themselves in power. Politicians are wrecking our infrastructure and history. The new pharaoh's forgot the contributions of all races. Remove them from power before they bring harm and chaos into the land.

Every people contributed the advancement of our land; rich, poor, Chinese, Indian, Malays, etc. It is a crime not to share our success with them. The more we are blessed the more we should give. In Acts 2, there is no one with needs. The current system now caused many people with needs.

4. The unfair and unwise style of administration and governance.

They took shrewd advantages of the pioneers. God will bring them to task. Those who set fire will be burned by fire. No curse sent against God's people will come to prosper. It will return back to sender. That's why the political changes will become better and a fairer playing field to all. We pray for a government without prejudice. We speak to the government of equality is education, business and politics. There is no need to take shrewd advantage of anybody.

All those that create chaos and confusions will themselves be in confusion. God is not a God of confusion. God will set fire to it.

5. We must protect the next generation

Pharaoh decreed that there will not be any male children among the Hebrews. They took advantage of our race and fathers. However there is a new generation rising and we need to protect this new generation. There many people who are like Moses that will deliver the nation. By putting our country into debt, we are putting our future generation into jeopardy. Our heart must be open and get ready for change. It was at this time Moses was born and at 40, his heart changed for the nation. We must make sure our family is strong. Let's stand on the ground and labor together and make sure our children are not trapped.

God's people are the key and God must give the word into our heart. Our children are our hope. The generation that we raise now will protect the future. God will preserve this generation and Moses will rise to become the deliverer. They will be supernaturally protected and they will rise one day and bring a change to Malaysia. We are the agents of change. A new Malaysia is about to break out.
