

RISE UP TO THE NEXT LEVEL - INDIVIDUAL

Thy Kingdom come on earth, Thy will be done as it is in heaven. Christ Revealed, Church Reformed, City Rebuilt

The New Malaysia is already coming in. We must not be afraid because the works of wicked people are powerful but the works of the righteous are more powerful. The best of the evil cannot destroy what God is doing. Most of us only see the negatives and think that we will become the victim. Death could not hold Jesus.

1. We must do very well in this present level

We cannot go up higher if we are failing at this present level. We must be functioning in the maximum capacity. We are taking every opportunity and gaining and conquering. We are going up higher and taking more territories. We are gaining ground. We are continuing in what we know and moving forward every day. Our prayer life is stronger. Every aspect of our life is stronger. Our spiritual and emotional is stronger. Our mental attitude is stronger. When we do well in this level, we can go to the next level. God cannot permit us to go to the next level until we do well in our current level. Spiritually we must be connected to God and His purpose, house, all that He is doing, etc. God wants us to be strong spiritually. We must be at our maximum capacity physically. We must be physically strong. All aspects of our life must be functioning at a 100%.

If we want to go to KL, we must make sure our car is functioning at the maximum capacity and not get stuck half way. God wants us to do well in where we are. If we are not doing well now, we cannot go to the next level. Are we doing well spiritually? Only we can answer this because we will need to check ourselves. Our engine must be pushing with great capacity. We must strive for excellence. A good attitude will determine our altitude. Sometimes it is the bad attitude that brings us down.

If we drive, we must take charge of our own life because there are many careless people on the road. We must be at our defense because there are many impolite and mad people around us. We must check ourselves and make sure we are doing well. That's why there are many safety measures we need to take. We need to do well.

2. We must break all people limitations

Everything that is in relationship with people we must win. We must work with all kinds of people and talk to all kinds of people. We must learn how to deal with the bad and the good and the wicked. If we don't know how to do this, our lives will always be miserable. We must break all limitations by living with the worse and still remain sane in our head. Sometimes due to people a lot of frustrations can be in our life. One bad worker can create chaos and tension in the whole factory. Everything that has to do with people, learn how to win and overcome it. We are born to be free to explore all the possibilities that we have. That's why people that surround us can destroy our life. If we have wrong friends, we have chosen to lose. Surround our life with good people. Some of us fail because we have bad people around our lives and listen to wrong counsel. Sometimes we meet with the wrong person and said the wrong words that caused

negative emotions to rise. If we want to go up to the next level, guard all interpersonal relationships. It is always the devil we know what will destroy us. What people say can mess us up. That's why we need to deal with all types of people. Make up our mind that we will deal with everyone. Most of our problems come from people. If we don't meet people we will not have problems. God wants to set us free by giving us wisdom. In the midst of all the funny people we need to rise up because we are important. Treat ourselves as important because we are a world changer and not let other people's world change us. We must cover ourselves and protect ourselves so that we can choose the right friends to succeed. We need to make up our mind. We don't need a thousand friends. We only need a few. If we have 5 or 10, we are blessed. If we have more than 10, it is divine. Good people who wants to see us succeed are rare and few.

Don't reduce what God is doing to our little kingdom. The church is not about us but about His house, His purpose and how we can volunteer freely so that His will can be done on earth. Whatever that is holding us back, we must break free and learn how to work together to get the job done.

Choose friends and get the right company of people. If we are among the wrong company of people, we must be on guard and discern. Our heart must be opened so that God can continually guard and protect us. Honor all relationships that God has opened up for us. Have the right rules of engagement. When we start to learn, share and love we will not be attacked by negative people.

One of the most powerful things is to forgive. We have to learn to let it go. Some people are just not worth fighting for. Why must we die at the expense of the enemy? We must live for God.

3. We must be established in what we believe

Don't compromise what we believe and don't surrender what we believe. If the people in the nations are sheep, the wolves will rise. When we are sheep, we will not be doing anything and just tolerate everything. The wolves rise because there is lots of food for them. The government cannot change unless the right type of people rise. The people must rise and believe that righteousness is the order of the day. Those who believe must do something. We must be a radical opposition to corruption. If we don't rise, the leaders will not change.

We must believe and strengthen what we believe for the destiny of our nation. We must have value in our heart. So that when we face hell and having done all, we can stand. Wicked man, temptation and corrupt man cannot deceive us. If we are strong in our belief, fear will not speak. Let not our frustrations or prejudice be heard even when there are some frustrations or prejudice inside us. Don't contradict what we believe. Believe His word and not the opinions of men. We must make sure we believe His word and confirm it in our heart. Confess it with our mouth. What we believe will make us whole. Write down what we believe. If we don't have these things in our heart, there will be no challenge to rise.

If we believe in something, we must fight for it. It is not easy because it will cost us our life. If we believe our children need a great future, then go all the way. A lot of people don't go all the way because there is nothing inside and they do not want to fight.

4. Follow the leader who is pleasing God who will live out our ideals

5. Inspire hope of a better future and energize ourselves for the journey

Everyone who listens to us must be able to see the future. If we can see the future we will live differently. Why we live the way we live because we can see better things coming. Everyone who can see the future will change their present. If we can see what God has planned, our walk will change. If we can see a better future our fears will be broken. We need to be strong and be very courageous. Even a warrior needs to be strong because of the battle they are fighting. If we double our number, the impact that we will have in the spirit world and the city will be great.

No one can steal our future. The dream is in our heart. Do not allow the dream thieves to take it away.
