

THE CHURCH THAT WILL MAKE A DIFFERENCE - ANS

Philip explained to the eunuch Christ. If people join us, they are part of the family. If they don't join us, they are our friends.

Be a blessing to them.

If the church bless itself, that is one level. God uses us to bless others because we care, not to cash in. Let them know that we have ears to listen and eyes to see. We must go beyond theory. Start crossing the line. Use our family, our house, our business, etc.

7 nations stronger than us and we can still possess the land. The other nations thought that Israel cannot survive because the whole land of Israel is desert. But now their GDP is higher than the nations around them. When we talk, don't talk lightly because we are a people of God. The people of Israel never talk lightly about who they are because they know they are the people of God. Though they are careless but God's favor on them has never changed.

We are God's people and they are part of God's original people. We have power to bless. We are the source of blessing. We build the Sports Hall to bridge into the community. Never forget what the purpose is for. We can do so many things.

This year we want to bring the Holy Spirit down more and more so that we can know Him personally. So many of us don't know Him.

When we are close to people, we must never fail to deliver the right thing. Then we can engage the community. We can do so many things; 7979 Network. When we engage people at their lowest point and give them hope, the connection will become stronger.

When we come to church on Sunday, touch God so that we can deliver what we receive on Sunday during cell groups for the people.

God has given us the power and authority to bless and forgive, to talk to them, to lead their children. This is a great privilege.

1. Celebrate in passionate worship

Sunday morning must be used to push our passion for God. The primary aim is to move in worship and love Him and pouring out our heart without care of people around us. Shout aloud and tell Him what we feel for Him. Undivided attention. If we do this, blessed are we.

2. Hear and heed inspired preaching

Hear and obey what the Holy Spirit is speaking to us to whosoever carrying it. Our aim is to hear and heed especially when God is speaking through these people.

A man of high stature carries weight in his words. God speaks His words.

3. Build honorable relationships

When we want to go out with a guy or girl, talk to the proper people in charge of them first. They belong to God and to their parents. Do not steal them away. We cannot go up higher because someone is holding the key. If we share our lives to others, we can go further up in assignment.

4. We desire people to become competent leaders.

Everyone must be strong and know their job and know what to do and how to protect the ones they are leading. Whatever we need for the job, we must provide for ourselves. We must make ourselves better. If we don't know technology or teamwork, upgrade ourselves to become better leaders.

5. We must receive Spirit Life education.

We cannot use personal preference to run the Kingdom. We must study the word to proof ourselves. We must find out what the Scriptures say. One of the thing that is lacking is most churches is, people who can hear God and speak. Many can read the bible and speak but many can't hear God and speak.
