

THE LAW OF WARFARE

Revelation, perception, wisdom. Without revelation, our perception cannot change.

Deu 20:1 *"When you go out to battle against your enemies and see horses and chariots and people more numerous than you, do not be afraid of them; for the LORD your God, who brought you up from the land of Egypt, is with you.*

1. We must take the warfare into the enemy's camp.

As a soccer player, we need to bring the ball to the enemy's side because that will bring pressure to them. God will let us hear the sound of the enemy and see the fears of the enemy. God wants us to take the battle to the other side. He is taking away fear, giving sight, revelation, insight, foresight and wisdom to translate plans into strategies. Don't fight on our own turf. Don't fight it internally. Bring it out external. Our mind is not the battle ground. Our mind is solely His and we have given our mind to Him. It is a place to receive instructions. When we set our mind to the things of the spirit, we can follow the dimensions of the Holy Spirit. God is training our hands for battle. The laws of warfare are true. Take the war to the enemy's camp.

2. We must identify our enemy.

Otherwise we will only be shadow boxing. Our eyes will not see flesh and blood. We will hear the sound of what God is doing. God will speak to us many things even though we don't know things and we don't know if God would speak. God can protect us when we have one to one encounter with the enemy. As people speak we will know who is false and who is not. The Holy Spirit will release upon us the discerning of spirits. He will train our senses to become sharper.

3. Concentration of forces (focus)

Use everything that we have to finish our assignment. The Holy Spirit wants our vision to be clear. Pray for the ability to focus so that we will not be distracted from destiny. Every kind of distraction and lie that the enemy sent will not capture us because we have the

Spirit of Truth. Receive the revelation of the Holy Spirit so that we can discern what is right or wrong. God will show us the end of the matter because the Spirit is upon our life. Don't change our focus. Use our time and energy to push through.

- **The emphasis of 2018 is the shout of the King**
- **The power of the voice.**
- **The power of sight.**

Our eyes will be opened. The eyes of our heart will be enlightened. The power of sight, revelation knowledge, understanding, perception, insight, foresight, and wisdom. All that God wants to show us is in the power of knowing. God will give us revelation of what He wants to do.

- **The power of the supply of the Holy Spirit.**

Drink from a clear fountain. Contaminated waters don't evaporate to bring rain. Greater is He that is in me than he that is in the world. We will never rise if we don't know this. A lot of Christians are born again but they cannot see.

This year is going to be fantastic to those who are strategic and those who want to be strategic. We must see that God is working in our life. Let there be a travail so that the barren womb will open and a breaking forth of joy.

Zec 11:12 *I said to them, "If it is good in your sight, give me my wages; but if not, never mind!" So they weighed out thirty shekels of silver as my wages.*

This is the curse of the old generation and they don't bother.

There is a dimension of life in our life that is within us.
