

## THE POWER OF NOW – Part 2

Participate in what God is doing. Do not start your own or cancel what God is doing. Participate. We must stay on the track.

- Partnership of the gospel
- Partnership of the grace
- Partnership of good companion

In every nation and country, God has blessed them with good people. When they good people are killed and paralyzed, what God wants to do cannot be done. We need partnership of companion. When we have good friends and sit with them and talk, our heart will become free. That's why never find a wrong companion. We cannot do anything with people who do not have connection with God.

### 1. Understand the power of now (Spiritual timing)

The power of now puts an end to the past and the things that held us back. We can start afresh. This is the goodness of God. We don't have to start anywhere else. We can start fresh. If we touch something in God, we can cut off the old. There is no beginning if there is not cutting of the past. We want to have a new year, not a recycled year.

Spiritual timing is the key to spiritual harvest. If we miss the time, we lose everything. We cannot become an Olympic athlete tomorrow. It takes time to train. Don't miss the time. We must be on time. Even God works according to time and He evaluates His work. Every work that we do, we must have some clear understanding. The best belongs to God.

### 2. One mind

We need to hear the same thing and receive the understanding of what God is saying so that our thinking pattern is similar. The mind must change. Every Sunday we listen to what God is saying. When the thinking pattern is changed, our lives are changed.

By being one mind, our thought patterns will be the same. We must think according to scriptures so that we can have sound judgment.

God wants us to be clear so that we have no other judgment except God's absolute word. God's word is final.

*Amo 3:3 Do two men walk together unless they have made an appointment?*

To become one mind we must agree to the destination and our corporate journey together. We must agree in one mind, our destiny and the way to get there.

Revelation is to know the facts. Understanding is to interpret the facts. Wisdom is to apply the facts.
