

THE FULL GOSPEL

No more delay. No more postponement because the time is now. Enter into what God has for us.

Receive our miracle and healing and resurrection.

Take away things that are negative in our heart. This internal confusion; anger, frustration, disappointment, etc will prolong our troubles. God wants us to clear all these from our heart. Today when we hear His voice, we have an opportunity to cross. Don't confuse our heart with conflicts. It does not matter who started the confusion or make us confuse. We are responsible for our own heart and we must rise up and have the power to stop the confusion. We have a choice.

During the time of Jesus, when Jesus died, He took all sin into His body. When He died on the cross, He paid the penalty of sin. The payback for all the pleasure of sin is death. We don't want death. Jesus came and paid the price for us.

He overcame the power of sin. We don't respond to the devil's threat. The devil terrorizes us with fear but no terror will come to us by night. When Jesus died on the cross He shut the door to sin. Sin could not return. When He died on the cross He paid the penalty of sin.

He removed the presence of sin. Sin is no longer present. The presence of sin is pushed away. When He died on the cross the propagator of sin was cut off. The devil can no longer market sin. Though we may not understand, God's power is protecting us and also those who are connected to us even though they are non Christians.

When He died on the cross He bought us with His own blood. He paid the highest for the lowest. The blood of the Son of God is clean and pure. Life is in the blood. When He shed His blood, He gave us His life. That's why it's not longer we that live but Christ living in us. Sin is an evil being which is to think outside of what God is saying and make ourselves as our own advisor. The wages of sin is death but death could not hold Him because He did not sin.

Let our heart be clean. The word that is coming from above is coming into our heart.

Take the frustration and negative emotions and thoughts out of our heart.

Important thing we must do immediately.

1. God is planting the seeds of the Kingdom

In this season God will plant the seeds of the Kingdom into our heart and accelerate its growth, progress and development so that He can bring the harvest sooner. The word that is coming from above is coming into our heart and germinates. Things will happen very fast. This is our resurrection blessing. God will give it to us with understanding. This is the morning we rise up and sense no devil and no flesh because they are out of the terrain. God wants us to be free and keep our hearts pure.

Take the frustrations and negative emotions and thoughts out of our heart.

God is planting the seed into our heart and it will take root very fast. In a short period of time, things will take place. Christian life will never be boring because things are happening. Those who don't want to change, just move on and continue to meet with new group of people.

2. Avail ourselves and become accessible to become part of history making

We must make ourselves easy for God to find us. Give ourselves up and let Him take us so that we can get ready for the moment of glory. When we take an assignment it is not about people like us. It is about getting the assignment done and train the people to like the assignment. Avail ourselves so that the moment of glory will come. In a single miracle it can turn the whole situation around. We cannot afford to waste our strength and get caught up in the rubbish in people's lives.

3. Believe in what God has put in your heart and we will see the reality.

Our lives will never be the same again. It will become more complete. What has God placed in our heart? When we do this we will rise. God has done so many things in our lives and if we don't stir it up, there will be no breakthrough. Whatever dream that is in our heart that God had placed (not dreams placed by our school teacher, father or mother, men etc) make it happen and let it come alive. Every Sunday we sit in the church with all things going inside our heart must not be lost inside the well. It must flow like a river. Let's start a powerful year.
